

Music Together® In School

Sampler Collection

A Taste of Our Comprehensive
Music Curriculum for Early Learning Settings

The Music Together® In School Sampler Collection is an introduction to our year-long, comprehensive curriculum for schools. With enough music and activities for about ten weeks of instruction, the sampler collection is an ideal way for schools to try us out. (Perfect for a spring or summer start!)

A Trained Music Specialist

Just like the Music Together In School curriculum, the sampler collection is delivered by a music specialist who has passed our best-in-class online training. Schools can train a staff member to be the specialist, or we can assist in identifying one in your community. Specialists teach weekly music classes and mentor classroom teachers on how to use music to support everyday classroom life. Even with just ten weeks of instruction, music will become a powerful learning tool!

Materials for Families, Teachers, and Music Specialists

- Families receive a music access code that allows them to download or stream their music through the **Music Together app** as well as a colorful, illustrated family songbook with activity ideas to try at home.
- Participating classrooms receive CDs/ music downloads and a copy of the family songbook.
- Music specialists receive a CD/music downloads and a songbook with developmentally appropriate activities for every song. They also get access to an online resource site with teaching videos, lesson plans, support for distance learning, and family engagement resources.

Training requirement: Requires a Music Together-trained Specialist who has successfully passed our in-school online training. As a part of this training, applicant must demonstrate they can sing in tune and move with accurate rhythm in their lower and upper bodies.

Award-Winning Music and Activities

The Sampler Collection includes 17 award-winning songs and chants, carefully selected from the 200+ songs in the Music Together core collections as the best for the early learning classroom.
