

MUSIC TOGETHER® Family Favorites®

Award-winning CD
with 32-page Activity Booklet

Music Together®, the acclaimed, international early childhood music education program for children from birth through kindergarten has enriched the musical lives of families around the world. Since its founding in 1987, Music Together has offered developmentally appropriate, research-based classes for children and their parents and caregivers in more than 2,000 communities and 30 countries around the world. Hundreds of thousands of families have come to love Music Together classes—and music!

Music Together Family Favorites features nineteen (19) outstanding songs and rhythmic rhymes drawn from all nine (9) Music Together® song collections. Included is a 32-page beautifully illustrated booklet with fun music-making activity suggestions for every song for use at home, in the car, or in the preschool classroom. Family-tested, child-approved: a wonderful addition to your store's children's music collection!

Selling Points

Quotes from Reviewers

"*Family Favorites* is an enjoyable and entertaining musical journey for your little ones... [My 4-1/2-year-old] enjoys spinning around the room with a stuffed friend while the carousel-esque waltz of 'Dancing with Teddy' plays in the background. She also kicks it on 'Mississippi Cats,' as she attempts to scat along with the jazz. [My daughter] digs sitting on the floor with us, slapping her lap, just like she does at school, and rocking back and forth to the fun and diverse blues/jazz/rock/folk music on *Family Favorites*."

—"Out with the Kids" reviewer

"When I heard that Music Together was creating a CD for everyone, and not just the lucky families who get it free along with their children's music classes, I jumped at the opportunity to check it out... Music Together is all about culturally diverse tunes along with a variety of tonalities and rhythms—not just your regular old sugar-pumped nursery rhymes. [The] *Music Together Family Favorites* CD snags the best songs from all nine collections...an excellent addition to your "distract the kids on long car rides" collection. [*Family Favorites*] will absolutely expose your children to a world of wonderful, appropriate music without you having to reach for your ear plugs."

—Kristen, "Cool Picks for Mom"

"The best part [about *Family Favorites*] is that it contains music from many genres, including folk and jazz. In addition to the CD, you'll get a booklet with great activity ideas to do with your child. It's also great to pop in the car...for those long...road trips... It's also a favorite CD for evening dance parties with the boys."

—"Goodies for Mom.com" reviewer
