

MUSIC TOGETHER® Family Favorites®

Award-winning CD
with 32-page Activity Booklet

2

Music Together, the acclaimed, international early childhood music education program for children from birth through kindergarten has enriched the musical lives of families around the world. Since its founding in 1987, Music Together has offered developmentally appropriate, research-based classes for children and their parents and caregivers in more than 2,000 communities and 30 countries around the world. Hundreds of thousands of families have come to love the Music Together classes—and our music!

Music Together Family Favorites 2—which follows the original award-winning *Family Favorites* CD—features nineteen (19) outstanding songs and rhythmic rhymes drawn from all nine (9) Music Together® song collections. Included is a 32-page beautifully illustrated booklet with fun music-making activity suggestions for every song for use at home, in the car, or in the preschool classroom.

Quotes from Reviewers

"Music Together shows how adults can make music with their children in simple, yet rewarding ways. The well-annotated CD booklet gives teachers, educators, and parents an abundance of ideas for movement, participation, singing, and supplementary activities for children to do with and to the music. Their entire approach to music and movement for younger children achieves a balance of thoughtfulness, respect for the musical sensibilities of adults and children, and pure fun."

—Parents' Choice

"This is a truly fabulous CD for children and families, every song on it a joy to sing-, move-, or dance-along to. There's an overall quality to the music, instrumentation, and lyrics that's so bright, cheery, and engaging, it's hard to imagine not feeling happy while listening to it. The presence of both adult and (lovely) children's voices invites active participation by all ages. The various meters, keys (both major and minor), and rhythmic accompaniments complement the wealth of musical styles, providing an incredibly rich listener experience. It would be difficult to name favorite songs, only because each one is delightful in its own unique way. A 32-page booklet includes a fun music-making activity suggestion for each and every song. We can't say enough good things about this wonderful musical experience!"

—Tillywig

"I LOVED the ["Family Favorites 2" activity] book! I read the book like 3 times! I am a preschool teacher of 3-year-olds and as I was using this CD with my 4-year-old son and 7-month-old daughter, I was seeing myself using this in my classroom setting. I intend to recommend it! ... This CD was well over my expectations!"

—Parent Tested Parent Approved (PTPA Media) Reviewer
