

# MUSIC TOGETHER®

## Research Inquiry Tracking Form

Music Together's mission is to provide the highest quality music and movement experiences to as many young children as possible and to involve their parents and other adult caregivers, including early childhood professionals. To that end, we welcome serious inquiries from researchers interested in studying the effects and applications of the Music Together program models (including, but not limited to, Music Together's methods and materials).

Please note: the completion of this form is not an endorsement of research. The Center for Music and Young Children, Music Together LLC's research and development affiliate, must approve the proposal.

Please understand that by submitting research or data for consideration, you agree that the Center for Music and Young Children LLC and/or Music Together LLC reserves the right to refuse to use, endorse, or otherwise support any research that, at its sole discretion, does not meet industry standards for peer-reviewed research.

In order to get early feedback on a research question that is in development, it is helpful for the researcher to communicate with the Center for Music and Young Children.
